# Benefits

Custom Reporting & Dashboards

Follow your unique KPIs and identify opportunities for operational improvement.

Daily Fire Check

Report any issues as per below:

- ☑ Fire brigade grab readily available
- ☐ Isolation Log Checked
- ☐ Panel location Clear & Accessible

te & Time:

Push/Pull structured information to/from your workers

With Mobile forms you receive/send location or asset specific information in a structured way that enables faster processing of information.

Issue Management

Prioritize and manage issues reported from the field till their resolution. Utilize work orders to assign tasks and monitor each step of the workflow.

Enterprise Solutions

Do you have unique operation needs beyond our standard out-of-the-box solution? Let's discuss about how we can meet these with a tailormade solution.

Welfare

Ensure worker safety by setting specific check intervals. Alerts will notify managers if checks aren't completed on time.
